I found it very interesting that Noreen, you, were the one they called via phone.  
I also found out, the inquiry made by FBI Agent will be papered as a closed case!!  
I also know and will ask you, Noreen on Record, at a meeting of the Board, questions via FBI contact.  
I also found it interesting that many of the questions, statements made via their investigation was found in favor of the Board and Management. *True?*

Will also report on the incident on the close office! Management and the Board have a responsibility to protect our people.

We must look close to possible legal action, we must take action to stop Harassment of the Board, management, and complaints from the membership of unknown persons knocking on their doors.

I for one, as stated by many members of the the Board, looking forward to Tuesday.

I for one plan to enjoy Monday...Holiday!

Ron
