I thought I would forward a little more investigation on possible lawsuits.

It has been ruled and found expensive for people to state in web pages, e-mails, and holding administrators of web sites liable for things said about other's that were false, hurting someone's reputation, persons character, writing on line....!

So what I am saying, check with your attorney's, there were many mis-statements, negative reviews submitted on line and written in the unauthorized web site that may be of interest to your attorney.

Passing on court rulings....Range is from \$50M to 1.5MM

Talks Soon Ron
